

Beauty and the Buzz

With spring's arrival comes the perfect time to update your beauty routine with the latest high-powered gadgets for hair, makeup and skin. Here are three buzz-worthy products to plug into this month.

HairMax LaserBand 82
 The new HairMax LaserBand 82 offers a safe and effective way to stimulate hair regrowth. Featuring a unique curved design that allows the product to sit comfortably on your head, the portable LaserBand 82 sends therapeutic light energy directly to hair follicles with the help of medical-grade lasers to increase hair density and fullness. Treatments take as little as 90 seconds and are done three times a week. \$795, Nordstrom at North East Mall, 1101 Melbourne Road, Suite 4000, Hurst, 817-590-2599, www.nordstrom.com.

Michael Todd Beauty SonicBlend Antimicrobial Sonic Makeup Brush
 Move over, Beautyblender. There is a new, high-powered makeup applicator in town. Described as the world's first sonic makeup brush, the Michael Todd Beauty SonicBlend Antimicrobial Sonic Makeup Brush delivers a flawless, streak-free finish by applying makeup in a sweeping motion up to 400 micro-movements per second. Suitable for use with powder, liquid or cream products, the brush features built-in protection against microbial contamination so the product stays cleaner and fresher longer. \$99, www.michaeltoddbeauty.com.

HiMirror Plus
 For anyone who has dreamed of having a personal beauty consultant, the new HiMirror Plus comes close. Debuted at this year's Consumer Electronics Show in Las Vegas, the revolutionary smart mirror uses a camera to assess your skin's condition and create a comprehensive analysis that helps to target problem areas and develop an optimal skincare routine. Used regularly, the mirror (which features smart-ambient lighting) helps track the skin's progress, so you can figure out, once and for all, what skincare products work. \$259, www.himirror.com.
