

Travel to the edge of space in this once-in-a-lifetime adventure.

TAKE IT TO THE LIMIT

If a flight into space seems extreme, then take it right to the edge in a MiG-29 Fulcrum twin-engine jet. Capable of speeds over Mach 2.3, the aircraft rockets up to 70,000 feet where passengers can take in heart-stopping views of the earth's curvature and the boundless darkness of space. As part of high-performance holiday specialist Incredible Adventures'

Edge Of Space programme, the trip includes several nights in Moscow and Nizhny Novgorod, where the flight takes place. The flight includes the experience of breaking the sound barriers and aerial acrobatics that might leave guests with a temporary neck ache from exposure to high G-forces – but what price adventure? incredible-adventures.com

Hop on a flight into space for a 10-day visit to the International Space Station.

LIVE THE BOND LIFE

Rare is the man who doesn't fantasise about being James Bond. Rarer yet is the man who acts on fulfilling that fantasy.

The latter can get a leg up thanks to London-based bespoke travel specialist Brown & Hudson, which can curate an exclusive Bond-inspired experience that might include racing to a secret training

Brown & Hudson will curate the ultimate Bond experience that money shouldn't be able to buy.

facility in the British countryside in an Aston Martin DB9 to train with Special Forces, or bungee jumping off Switzerland's incredible Contra Dam. If the world is not enough, hop on a flight into space for a 10-day visit to the International Space Station. Clearly, the sky is not the limit. www.browndanandhudson.com
